Josh, good afternoon.

The updated engineered tower design per your comments is attached.

I believe we have addressed all but the ASCE Hazard the team is looking into how we can get that updated, the process is done thru a ASCE website, they plug in the lat/long and it generates the report automatically. Services team is addressing with our engineering teams to see what we can do to get that updated.

I hate to ask but ATT is in desperate need of a permit in hand ASAP, are we on track to see the NY-2030 LIVERPOOL construction permit soon?

PLEASE NOTE – NTP PACKAGES FOR THE FOLLOWING AREAS SHOULD BE SENT TO NTPEast@phoenixintl.com this includes the NORTHEAST, SOUTHEAST, MIDWEST & TX.

Thank you,

Jackie

Jackie,

I apologize for this confusion. Please see attached PDF of the cover sheet of the report I'm referring to and Page 35 with the reference to IBC. I included a red arrow pointing to this reference. The International Building Code was updated with the 2020 Building Code of New York State.

Thanks,

Josh, our engineers are uncertain what document you are referring to below that this reference appears on page 35? The Tower Design appears to be the only document with 36 pages but there is no reference to 2020 Building Code of NYS.

No.	Drawing No. or Spec. Section	Comments	Action	Responses
7.	Page 35	There is reference to Internation Building Code at the top left corner of this page. The internation Code was replaced with the 2020 Building Code of New York State. Review revise as necessary.		Correction- This item is found in the top left corner of page 35.

PLEASE NOTE – NTP PACKAGES FOR THE FOLLOWING AREAS SHOULD BE SENT TO NTPEast@phoenixintl.com this includes the NORTHEAST, SOUTHEAST, MIDWEST & TX.

Thank you,

Jackie

Jackie,

Please see attached comments. This round includes the review of the ASCE Design Hazard Reports.

Thanks,

Josh good afternoon.

Please see attached response to comments and additional updated docs in zip.

Also, our engineers were uncertain what this comment referred to, can you provide some insight as to what reports you are referring to?

Thank you,

Jackie

Josh, just so you are aware the Exit 37 address was listed a few times on the comments, I struck it out and replaced with Exit 33 Verona NY

Thank you,

Jackie

Jakie,

I have attached my review comments for the Exit 33 Cell Tower. Please have the response column filled out on the comment review sheet and have any changes to plans clouded and labeled with the revision number for which the change was made. This will give me guidance on my next review and help streamline the review process.

Thanks,

Joshua Stagnitti
