PROPOSED DEVELOPED LAND, NEW BUILD TELECOMMUNICATION TOWER
MONOPOLE TOWER (OVERALL HEIGHT 160')
NYS I-90 EXIT 37
TOWN OF LIVERPOOL
ONONDAGA COUNTY, NEW YORK
LATITUDE: N 43° 10' 19.08"
LONGITUDE: W 76° 18' 50.71"

Dear Ms. Primerano,

Tectonic is currently conducting an environmental review of the above-referenced site and is submitting the information contained herein for your evaluation of potential impacts to historic resources.

The project consists of the proposed construction of an 160' monopole tower with associated equipment, compound, at NYSTA I-90 Exit 37 (north of the I-90 on-off ramp), Town of Liverpool, Onondaga County, NY. The project area is currently characterized as an mowed lawn and undeveloped woodland ROW area with I-90 to the north and Electronics Parkway to the west.

This correspondence is submitted to you for your review and comment in accordance with The Nationwide Programmatic Agreement for Review of Effects on Historic Properties for Certain Undertakings Approved by the Federal Communications Commission, and Section 106 of the National Historic Preservation Act of 1966 for the purpose of initiating Section 106 Consultation for this project.

Please contact Tectonic if you are aware of any locally identified historic resources on or near the project site or have comments on resources important to your community that you feel may be affected by the proposed project.

Please notify us of your concerns related to this information as soon as possible. If you have additional information or have questions concerning the evaluation, please contact me by telephone at: (845) 534-5959 or electronic mail at: culturalresources@tectonicengineering.com.

Sincerely,
TECTONIC ENGINEERING CONSULTANTS, GEOLOGISTS & LAND SURVEYORS, D.P.C.

PUBLIC NOTICE:

Phoenix Towers International Services is proposing to build a 180-foot cellular communications monopole tower (overall height: 184 feet with lightning rod) and equipment compound off the NYS Thruway (I-90) Exit 37 off-ramp in the Town of Salina, Onondaga County, New York. The tower's latitude and longitude are N 43° 06' 06.87" W 76° 11' 06.26". The tower is located approximately 500 feet east-southeast of the intersection of the NYS Thruway Exit 37 off-ramp and Electronics Parkway. Public comments from any interested party on the impact of the proposed action on any districts, sites, buildings, structures or objects significant in American history, archaeology, engineering or culture that are listed or determined eligible for listing in the National Register of Historic Places and/or any specific reason the proposed action may have a significant impact on the quality of the human environment, may be submitted within 30 days from the date of this publication to: Tectonic Engineering, Lori Bart, 1279 Route 300, Newburgh, NY 12550, (845) 534-5959, lbart@tectonic-engineering.com. Please respond within 30 days if you wish to comment.
